Flooding in Somerset: why a "major incident" was declared

Somerset Council declared a major incident after Storm Chandra because exceptionally heavy rain fell on already saturated ground, causing rapid rises in river and moorland water levels and localised flooding across the county. Calling a major incident is used as a precautionary, multi-agency trigger: it allows councils, emergency services, the Environment Agency and voluntary partners to pool resources quickly, run a central incident cell, redeploy staff, share information, stand up rest centres if needed, and prioritise support for the most vulnerable. The declaration does not automatically mean mandatory evacuations, but it signals the heightened risk and ensures a coordinated, scalable response while further warnings and flood alerts remain in force.

Storm Chandra followed multiple recent storms, producing new short-duration rainfall records in the south-west and rapid flooding across previously less-affected areas.

[Experts argue the pattern is directly linked to global heating \(warmer air → more water vapour → heavier downpours\)](#) and that communities are already experiencing impacts earlier than expected.

Local leaders and flood scientists warn that emergency, short-term measures (pumps, cranes, contractors) are necessary but insufficient without sustained funding, maintenance and nature-based interventions; some voices even raise the difficult prospect that, without major investment, some settlements may become increasingly hard to protect long term.

Mike has been actively involved in working to improve flood defences during this event, notably in Moorland/Northmoor Green which flooded badly in 2014, along with Thorney and Muchelney and other places. He has been in regular contact with the EA and our MPs on this, and has appeared twice in the past week on BBC Points West and been interviewed on Radio Somerset. The Guardian newspaper has also covered the flooding twice, quoting Mike at length.

This is a rapidly changing situation for updates please see links below:

Somerset opens new eco-homes in Minehead as national commentary highlights significance

Somerset Council and Homes in Somerset have completed and officially opened 54 zero-carbon council homes on Seaward Way/Rainbow Way in Minehead — 33 flats and 21 houses — all let to local people with strong connections to the area. The development is the first council housing scheme in West Somerset for a generation.

Council leaders describe the scheme as a milestone for Somerset, delivering energy-efficient, affordable homes that support local jobs and wellbeing, allocated under the council's lettings policy. "The Seaward Way development opening marks the first council homes to come to Minehead in 30 years. This is a huge achievement by everyone involved, bringing the types of home to the area that residents can be proud of," says Cllr Bill Revans, Leader of Somerset Council.

[A Guardian opinion piece frames the Minehead project](#) as part of a wider revival in publicly led council housebuilding, arguing developments like this carry national significance for housing policy and politics.

Council delays budget meetings after Government postpones funding announcement

Somerset Council has revised its budget timetable after the Government confirmed the Final Local Government Settlement will be published on the 9th of February 2026, a week later than expected. The delay reduces the time available to analyse the settlement, complete approvals and prepare statutory budget papers.

The 9th of February announcement is also expected to confirm whether councils may set Council Tax above the 4.99% referendum limit and whether financial support will be provided for the accumulated Dedicated Schools Grant deficit. Decisions on Exceptional Financial Support via a Capitalisation Directive — which last year arrived in late February — may also be delayed.

Revised meeting timetable for budget decision making:

- 11th of February: Executive
- 25th of February: Extraordinary Executive
- 4th of March: Rescheduled Full Council — Budget and Council Tax setting

Nearly two-thirds of Somerset residents back council tax rise to protect services

Nearly two-thirds of residents (62%) said they would accept a council tax increase to avoid cuts, according to Somerset Council's December 2025 budget consultation of more than 1,400 people. Of those, 27% favoured a rise below 4.99%, 21% supported 4.99% and 15% favoured a larger increase; 36% opposed any rise.

A strong 86% want the council to lobby central government for more funding and reform. Top priorities were roads and pavements (55%), followed by crime (29%), public transport and schools (28% each); 83% opposed cuts to road maintenance and 68% opposed cuts to waste services.

Fewer residents now back giving the council more local control over council tax (38%, down from 49%), citing concerns about perceived waste on consultants and regeneration.

Somerset recognised for road condition with green ratings for condition and maintenance

Despite recent weather that has caused 850 road defects over the weekend (Jan 31- Feb 1) with defects 60%-70% higher than last year which will cost the county 1million more and that is before we have assessed the roads that are currently flooded, Somerset Council earns green ratings for the condition of its A, B, C and unclassified roads and for its preventative maintenance under the Department for Transport's new traffic-light gradings. In 2025/26 the council plans to resurface 55 km and apply preventative treatments to 185 km of road; of nearly £45m capital and just under £5m

Curry Rivel & Langport Division
Unitary Councillor Report February 2026
Mike Stanton & Richard Wilkins

revenue funding, around 89% is earmarked for preventative work. Despite strong condition and maintenance ratings, the council receives an overall amber rating because it is graded red for capital spend, even though it is on track to use 98% of its DfT capital allocation this year. The council says it will keep prioritising preventative work to maintain road standards. Residents to shape Somerset's adult social care future

Somerset Council has launched a short consultation to refresh its Adult Social Care strategy for 2026–2029 and is inviting residents, unpaid carers and organisations to contribute. The council will combine face-to-face engagement with an online survey to gather views on recent experiences of care, barriers faced, what good care looks like and priorities for the next three years. Responses will inform the revised strategy and a continuous improvement plan. The consultation closes on 27 March 2026.

Have your say: Somerset Adult Social Care Strategy (2026–2029) consultation page — <https://www.somerset.gov.uk/consultations/>

Have your say on Green Lane proposals

Somerset Council is consulting on trial changes at five rural/edge-of-residential routes (Burcott Lane, Wells; Comeytrowe Road, Taunton; Neville's Batch, Gurney Slade; Downend Road, Puriton; Touches Lane, Chard) to improve access for walkers, cyclists, horse riders and wheeling users by removing through motor traffic where appropriate. Trials would be followed by further consultation before any permanent changes. Nearby residents and businesses will be notified by letter.

Take part: <https://www.somerset.gov.uk/consultations/green-lanes-consultation>

Changes to recycling collections for people in flats

Somerset Council will roll out expanded communal recycling collections from the end of March for about 13,000 households in flats and other communal properties. New collections will include plastic bottles, pots/tubs/trays, tins/cans/foil/aerosols, glass bottles and jars, cartons, food waste, and plastic bags/wrappers. A leaflet with start dates will be posted to affected residents; if you do not receive a letter, your collection remains unchanged. The scheme is funded by the Government's Simpler Recycling programme.

Bus service improvements proposed

Somerset Council is considering how to spend a government Bus Service Fund award (around £11.4m capital to 2029/30 and £13.1m revenue to 2028/29) to boost bus services, better integrate with rail, expand Digital Demand Responsive Transport (DDRT), improve links to employment and health,

Curry Rivel & Langport Division

develop transport hubs, and prepare for Project Coral multi-operator ticketing. Decisions on measures and costings will be taken by the Council's Executive in early March.

Dawn French Sitcom and Agatha Christie A-List Drama Put Somerset on Screen

Somerset is enjoying a screen moment as two high-profile productions showcase the county and boost the local economy.

Can You Keep a Secret?, a new sitcom starring Dawn French largely filmed around Axbridge and Cheddar, is now available on BBC One and iPlayer, with viewers enjoying scenes of Axbridge's medieval town square, Cheddar Gorge and local cafés. Agatha Christie's Seven Dials, a lavish three-part adaptation that filmed key scenes on the West Somerset Railway at Blue Anchor and Minehead and at The Bottle Yard Studios, is currently riding high on Netflix's must-watch list, drawing attention to Somerset's coastal and heritage locations.

Both productions receive support from Screen Somerset, the council's film office, and film and TV work is estimated to bring £4.2m to the Somerset economy last year, supporting local businesses and tourism as audiences take in the county's scenery on screen. Somerset is continuing to reap benefits as filming activity keeps shops, cafés and tourism businesses busy and raises the county's profile, with local streets and heritage sites remaining in demand for future productions.

Somerset joins national Holocaust Memorial Day "80 candles"

Somerset took part in the national Holocaust Memorial Day "80 candles for 80 years" initiative in January, hosting the memorial candle in a handcrafted willow holder at Taunton Library from 5th to 16th of January. The display, chosen as one of 80 across the UK to mark the 80th anniversary of Auschwitz-Birkenau's liberation and the 30th anniversary of the Srebrenica genocide, became a countywide community project: the travelling candleholder collected ribbon flowers representing persecuted groups and prompted residents to share personal and family stories. The project highlighted Somerset's historical links to global conflicts and encouraged reflection, listening and dialogue as the holder continued its journey around the county.
